

MACCHI at KOPLAS 2025

Macchi, the world renowned Italian manufacturer of blown film extrusion lines, has been for the last decades one of the leading suppliers to the Korean market, totalling tens of blown film extrusion lines installed and running.

The traditional, long lasting partnership with Mr. Augustin KIM, General Manager of Blowtech Co., has now come to an end, due to his retirement. Nevertheless, the Macchi full commitment with the Korean market is continuing, stronger than ever.

As a matter of fact, Macchi has recently entered a new partnership with Messrs. PACTIVE KOREA, a well known and highly respected player on the Korean market.

The two new partners have already started cooperating to take care as best possible the Korean Customers, and will both be attending the upcoming KOPLAS 2025 show (Seoul, March 11-14).

Macchi will be on their booth P763 with their CEO, Mr. Anthony M. Caprioli, and with the Area Manager Mr. Claudio Grignaschi, showing thus the deep engagement of the Italian Company with the Korean market.

PACTIVE will be exhibiting on booth P205, and shall be at the same time attending the Macchi booth.

We are happy to invite all Korean Customers to come and meet us at the show, to discuss your new project and the opportunity of business developments offered by the innovative Macchi technologies.

See you at the show !
